ADDENDUM #2

Request for Proposal 05-2020

Water Quality Monitoring and Reporting Program for the North and South Landfill Sites

For the Corporation of the Municipality of Oliver Paipoonge
~ Public Works Department ~

Questions/Clarifications

1. QA/QC concern: Neither the Spence Rd. nor Barrie Dr. landfills have requirements for trip blanks or field blanks. Additionally, only the Barrie Dr. landfill requires field duplicates while the Spence Rd. landfill makes no mention of them. Are these required? It is only listed in the RFP to request replicate sampling from the lab for internal analysis.
A. **Not required.**
2. Will the selected bidder receive the working files (active files like excel sheets, CAD drawings, etc.) for the previous years' data and site plans?
A. **Yes**
3. For the Spence Rd. landfill:
 - a. The parameters for MW1, MW5, MW6, MW7, MW9, MW11, MW15, MW18, and Spence Road call for "Total Suspended Solids" to be measured while the parameters for MW2, MW3, MW4, MW8, MW10, MW12, MW13S, MW13D, MW14, MW16, MW17, MW19, and MW20 call only for "Suspended Solids" to be measured. According to Schedule 5 Column 2, which the parameter table cites, "Suspended Solids (Leachate Only)" is what should be requested. Can you help clarify this?
A. **Correct to Suspended only**
 - b. Can you provide an explanation for why it is that only for MW2, MW3, MW4, MW8, MW10, MW12, MW13S, MW13D, MW14, MW16, MW17, MW19, and MW20 additional parameters including cadmium, lead, chromium, and benzene are required as opposed to the other wells for Spence Rd.?
A. **Please provide costing as requested.**

- c. The surface water parameters make reference to Schedule 5, Column 4 but do not include measuring flow. Is there a reason this was not included?
A. **This was an oversight, measuring flow is required**
4. Can the most recent reports for the North and South Landfills be provided before the proposal due date? This will be very helpful to properly determine time/costs for the water sampling and topographic surveys.
A. **No**
5. Will historical data be provided to the successful bidder in Excel format?
A. **Yes**
6. historical drawings be provided to the successful bidder in Autocad format?
A. **Yes**
7. How many hard copies will you require and will digital copies also be required?
A. **One printed copy is required**
8. Could you please confirm if a detailed written proposal is required to be submitted along with the Form of Proposal/Schedule of Pricing or just the form?
A. **A detail written proposal is not mandatory but can be helpful during evaluation of the proposal.**
9. Could we have a PDF copy of the annual landfill report(s) prepared for the 2019 operating year?
A. **The copy of the 2019 reports will only be available to the successful bidder**

This addendum forms and becomes part of Request for Proposal 05-2020 and shall be acknowledged in Acknowledgment of Addendum of the tender document.
